

“ Just as I have done
to you
so also should you do ”

(Jn 13,15)

Promoting projects, gaining identity

In cooperation with the Diakonia Christi Foundation the International Diaconate Centre, develops, promotes and supervises projects of active solidarity worldwide. So, for instance, deacons in the slums of Mumbai work in a health prevention project.

In the North of Germany a deacon in cooperation with the Caritas Association, tries to integrate people in danger of becoming addicts and in need of help into the labour market. Another deacon leads an addiction counselling unit of Caritas in Hungary and is supported financially in order to carry out this work.

In all these different projects the deacons are on the side of the poor and forgotten. They become the eyes of the Church and gain identity as representatives of the poor. With their service, they strengthen the diaconal face of the Church and give a living witness to God's presence in our World.
