# Promoting Active Solidarity

Since 2002 the **Diaconia Christi Internationalis Foundation** has been promoting active solidarity for the good of underprivileged people. In close cooperation with the International Diaconate Centre (IDC) and with local deacons, projects are supported worldwide – health prevention in the slums of Mumbai as well as support for individuals in danger of addiction or for addicts in Hungary and Germany. Theological and social projects learning processes are initiated. International networking is strengthened. The work of the **International Diaconate Centre** is promoted.
